

PRODUCT SPECIFICATIONS – TUNNEL LIGHTING 200 LUMENS

DESCRIPTION	
Part Number	MG-200-T2-48-48DC
Casing	Silicone - Moulded
LED Chip type	SMD2835
LED configuration	48 LEDs per meter
Maximum running length – 48v	400 meters – Dual Feed 200 meters – Single Feed
Recommended fixing height	2-4 Meters
IP Rating	67
Power Consumption per LED	0.04 Watts/LED
Power Consumption per Metre	2 Watts/m
Colour Rendering Index CRI	> 80
Colour temperature	6,500 Kelvin
Luminous Efficacy	100 Lumens / Watt
Lumens per meter	200 Lumens
Voltage on lighting VDC	48 VDC
Supply voltage for power controllers VAC	85 - 265 VAC
Light maintenance	20% reduction over 4 years
Lifespan	50,000 hours
Warranty Lighting	5 Years
Protection	Short Circuit Over Voltage Over temperature Over Current
Operating Temperature	-40° to +65° Celsius
Lux - Based on a 3m x 3m tunnel	153 lux @ 2m average
